QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

The Company's financial statements are prepared and presented in accordance with current Vietnamese Accounting Standards and Vietnamese Enterprise Accounting Regimes and relevant legal regulations.

IV. Summary of main accounting policies

1. Types of exchange rates applied in accounting

The exchange rate for converting transactions arising in the period in foreign currencies is the transaction exchange rate with the Joint Stock Commercial Bank for Foreign Trade of Vietnam - Hanoi Branch.

The exchange rate when revaluating foreign currency items at the time of preparing the Financial Statements is the exchange rate announced by the Joint Stock Commercial Bank for Foreign Trade of Vietnam - Hanoi Branch and An Binh Commercial Joint Stock Bank - Hanoi Branch.

In which:

The exchange rate when revaluating foreign currency items classified as assets is the buying exchange rate of the Joint Stock Commercial Bank for Foreign Trade of Vietnam - Hanoi Branch.

The exchange rate when revaluating foreign currency items classified as liabilities is the selling exchange rate of the Joint Stock Commercial Bank for Foreign Trade of Vietnam - Hanoi Branch.

2. Principles of recording cash and cash equivalents

Cash is a synthetic indicator reflecting the total amount of cash available to the enterprise at the reporting time, including cash in the enterprise's fund, non-term bank deposits, recorded and reported in Vietnamese Dong (VND), in accordance with the provisions of the Accounting Law No. 88/2015/QH13 dated November 20, 2015, effective from January 1, 2017.

Cash equivalents include term deposits with original period of no more than 3 months from the date of investment, which are highly liquid, readily convertible into known amounts of cash, and subject to an insignificant risk of conversion into cash.

3. Accounting principles for financial investments

Investments held to maturity

Investments held to maturity include investments that the Company has the intention and ability to hold until maturity. The Company's investments held to maturity are bank deposits with maturities recorded from the date of deposit activity.

Investments in associates

**MECHANICAL ENGINEERING SERVICE JOINT STOCK
COMPANY**

Address: 8th Floor, Sky Tower Complex, No. 88 Lang Ha, Lang Ward,
Hanoi City

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

An associate is an entity in which the Company has significant influence and that is neither a subsidiary nor a joint venture of the Company. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The Company initially records its investment in an associate at cost. The Company recognizes in its income in the Income Statement the portion of the accumulated net profits of the investee arising subsequent to the date of acquisition. Any other amount received by the Company other than such profits is considered a recovery of the investment and is recognized as a reduction in the cost of the investment.

Investments in equity instruments of other entities

Investments in equity instruments of other entities represent investments in equity instruments but the Company does not have control, joint control or significant influence over the investee.

Investments in equity instruments of other entities are stated at cost less provisions for diminution in value of investments.

Method of making provisions for diminution in value of investments

Investments in associates and capital contributions in other entities are presented in the Balance Sheet at cost less provisions for diminution in value (if any). Provisions for devaluation of investments in these companies are made in accordance with Circular No. 228/2009/TT-BTC dated December 7, 2009 of the Ministry of Finance on “Guiding the regime of setting up and using provisions for devaluation of inventories, losses of financial investments, bad debts and warranties for products, goods and construction works at enterprises”, Circular No. 89/2013/TT-BTC dated June 28, 2013 of the Ministry of Finance on amending and supplementing Circular No. 228/2009/TT-BTC and current accounting regulations.

4. Accounting principles for receivables

Receivables are amounts that can be recovered from customers or other entities. Receivables include receivables from customers and other receivables. Receivables are presented at carrying amount minus provisions for bad debts. Accounts receivable receivables are not recorded higher than the value to be recovered.

Customer receivables include receivables of a commercial nature, arising from purchase-sale transactions.

Other receivables include receivables of a non-commercial nature, not related to purchase-sale transactions.

Receivables are monitored in detail by each subject and term of the receivables and other factors according to the management needs of the enterprise.

5. Principles of inventory recognition

**MECHANICAL ENGINEERING SERVICE JOINT STOCK
COMPANY**

Address: 8th Floor, Sky Tower Complex, No. 88 Lang Ha, Lang Ward,
Hanoi City

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

Inventories are determined based on the lower of cost and net realizable value. The cost of inventories includes direct materials, direct labor and those overheads incurred in bringing the inventories to their present location and condition. The cost of inventories is determined by the weighted average method. Net realizable value is determined by the estimated selling price less the estimated costs of completion and marketing, selling and distribution costs incurred.

Inventory accounting method: The Company applies the regular declaration method.

6. Principles of recording and depreciation of fixed assets

6.1. Principles of recording and depreciation of tangible fixed assets

Tangible fixed assets are recorded at their original cost, reflected on the Balance Sheet according to the indicators of original cost, accumulated depreciation and residual value.

The recording of tangible fixed assets and depreciation of tangible fixed assets are implemented in accordance with Vietnamese Accounting Standard No. 03 - Tangible fixed assets, Circular No. 200/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance guiding the enterprise accounting regime, Circular 45/2013/TT-BTC dated April 25, 2013 guiding the regime of management, use and depreciation of fixed assets, Circular No. 147/2016/TT-BTC dated October 13, 2016 on amending and supplementing a number of articles of Circular No. 45/2013/TT-BTC and Circular No. 28/2017/TT-BTC dated April 12, 2017 to amend and supplement a number of articles of Circular No. 45/2013/TT-BTC and 147/2016/TT-BTC.

The original cost of a purchased tangible fixed asset includes the purchase price (excluding trade discounts or rebates), taxes and costs directly related to bringing the asset to a state of readiness for use.

Expenses incurred after the initial recognition of tangible fixed assets are recorded as an increase in the original cost of the asset when these expenses certainly increase future economic benefits. Expenses incurred that do not satisfy the above conditions are recorded by the company in the production and business expenses of the period.

The company applies the straight-line depreciation method for tangible fixed assets. Accounting Tangible fixed assets are classified according to groups of assets with the same nature and purpose of use in the company's production and business activities, including:

Type of fixed assets	Time of depreciation (year)
Buildings, structures (*)	05 - 50
Transportation vehicles, transmission equipment	06 - 10
Management equipment, tools	03 - 10
Other fixed assets (**)	No depreciation

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

() Fixed assets in the group of Buildings and structures that are not depreciated are "Land clearance costs, investment in construction of the Waste Treatment Plant Project" with a value of VND 17,607,916,631. These are costs incurred in relation to compensation for crops for farmers and land clearance for the Waste Treatment Plant Construction Project. These costs have been settled by the State and handed over to the Company for management together with the Project land. This is an asset assigned by the State for management and is currently not directly serving production and business activities. Therefore, the Company does not depreciate this asset.*

*(**) Other fixed assets are "Perennial trees at the Waste Treatment Plant" of the Company when conducting the Enterprise Equitization, which was valued at VND 651,085,030. However, in reality, these trees are no longer valuable, so the Company does not depreciate these assets.*

6.2 Principles for recording the depreciation method of intangible fixed assets

Intangible fixed assets are the value of ownership rights of 1,000 m² of office floor space worth VND 13,435,977,000 according to Business Cooperation Contract No. 27/2015/HTKD/CD-DXMB&MS dated March 31, 2015 to implement the Mixed-Function Area project (High-rise residential area combined with commercial services, low-rise housing and kindergarten) at Sai Dong Street, Viet Hung Ward, Long Bien District, Hanoi City. This is the asset that the Company will manage and use in the future when implementing the business cooperation contract and has been recorded as an increase in State capital with the corresponding value according to Decision No. 3468/QD-UBND dated July 24, 2015 of the Hanoi city People's Committee on approving the enterprise value and equitization plan of the Construction Mechanical and Electrical One Member Co., Ltd. The Company does not depreciate this intangible fixed asset.

7. Accounting principles for business cooperation contracts

A business cooperation contract (BCC) is a contractual agreement between two or more parties to jointly carry out economic activities without forming an independent legal entity. This activity can be jointly controlled by the capital contributors under the joint venture agreement or controlled by one of the participating parties.

In all cases, when receiving money or assets contributed by other parties to the BCC activities, the Company records them as liabilities and is not recorded in equity.

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

Mechanical Engineering Service Joint Stock Company signed Joint Venture Contract No. 08/2011/HD-HTKD dated April 5, 2011 with Indochina Resources Development Joint Stock Company on contributing capital to invest in the construction of the Project on a land area of 149,566 m² in Ta Thanh Oai Commune, Thanh Tri, Hanoi. Previously, this land was assigned by Construction Mechanical and Electrical One Member Co., Ltd., now Mechanical Engineering Service Joint Stock Company, assigned by the Hanoi People's Committee as the investor to build a waste treatment plant for the city, but up to now, the construction of a waste treatment plant here is no longer suitable. Hanoi People's Committee has issued a policy allowing the Company to study and propose to change the land use purpose to a new project in accordance with the planning. According to this Joint Venture Contract, Indochina Resources Development Joint Stock Company contributes 49% of the total investment capital. The capital contribution of 51% of the total investment capital of the Project includes the Company's capital contribution and capital of other partners mobilized and directly signed by the Company. The profit used as the basis for calculating the income is the profit earned by the Project, minus the obligations to the State according to current regulations and other reasonable expenses (if any). The Parties are entitled to income according to the capital contribution ratio in the Contract. In fact, up to the time of 31/03/2026, Indochina Resources Development Joint Stock Company has not yet contributed capital to invest in the project. The value of the capital contribution equivalent to 49% of this Company is VND 21,050,429,167, which is recorded by the Company as other long-term receivables corresponding to the Owner's capital contribution approved under the Equitization Decision No. 1366/QD-UBND dated March 18, 2016 of the Hanoi city People's Committee.

8. Accounting principles for payables

Payables are amounts payable to suppliers and other entities. Payables include payables to sellers and other payables. Payables are not recorded as lower than payment obligations.

Payables to sellers include commercial payables arising from transactions of purchasing goods, services, assets and the seller is an independent entity from the buyer, including payables between the parent company and its subsidiaries.

Other payables include non-commercial payables not related to transactions of purchasing, selling, providing goods and services.

Payables are tracked in detail by each entity and payment term.

Payables in foreign currencies are re-evaluated by the Company at the selling exchange rate of the Joint Stock Commercial Bank for Foreign Trade of Vietnam - Hanoi Branch.

9. Principles of recording equity

**MECHANICAL ENGINEERING SERVICE JOINT STOCK
COMPANY**

Address: 8th Floor, Sky Tower Complex, No. 88 Lang Ha, Lang Ward,
Hanoi City

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

The Company's owners' capital contribution is recorded according to the actual amount contributed by the owners.

Undistributed profit after tax is the loss from the business operations of the enterprise.

10. Principles and methods of recording revenue

The Company's revenue includes revenue from sales, provision of public services, construction and installation activities, trade and office rental.

Revenue from sales of goods

Revenue from sales of goods and finished products is recorded when the following conditions are simultaneously satisfied:

- + The enterprise has transferred most of the risks and benefits associated with the ownership of the product or goods to the buyer;
- + The enterprise no longer holds the right to manage the goods as the owner of the goods or the right to control the goods;
- + Revenue is determined relatively reliably. When the contract stipulates that the buyer has the right to return the products, goods, purchased under specific conditions, revenue is only recognized when those specific conditions no longer exist and the buyer is not entitled to return the products, goods (except in cases where the customer has the right to return the goods in the form of exchange for other goods, services);
- + The enterprise has obtained or will obtain economic benefits from the sale transaction;
- + The costs related to the sale transaction can be determined.

Service rental revenue

Service revenue is recognized when the results of the transaction can be determined reliably. In case the service transaction is related to many periods, revenue is recognized in the period according to the results of the work completed at the date of the Balance Sheet of that period. The results of the service provision transaction are determined when all the following conditions are satisfied:

- + Revenue can be determined relatively reliably. When a contract provides that the buyer has the right to return the purchased services under specific conditions, revenue is recognized only when those specific conditions no longer exist and the buyer has no right to return the services provided;
- + It is possible to gain economic benefits from the transaction of providing that service.;
- + Determine the portion of work completed as of the Balance Sheet date.
- + Identify the costs incurred for the transaction and the costs to complete the transaction to provide that service.

**MECHANICAL ENGINEERING SERVICE JOINT STOCK
COMPANY**

Address: 8th Floor, Sky Tower Complex, No. 88 Lang Ha, Lang Ward,
Hanoi City

**FINANCIAL
STATEMENTS**
QUARTER I OF 2026

Form No. B 09a - DN

NOTES TO THE FINANCIAL STATEMENTS FOR THE FIRST QUARTER OF 2026

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

Construction revenue

When the outcome of a contract can be estimated reliably:

+ For construction contracts that stipulate that the contractor is paid according to the planned progress, revenue and costs related to the contract are recognized corresponding to the portion of work completed as determined by the Enterprise at the end of the financial year.

+ For construction contracts that stipulate that the contractor is paid according to the value of the performed volume, revenue and costs related to the contract are recorded corresponding to the completed work confirmed by the customer and reflected on the issued invoice.

Increases and decreases in construction and installation volume, compensation and other revenues are only recorded as revenue when agreed with the customer.

When the results of the construction contract cannot be estimated reliably, then:

Revenue is only recorded equivalent to the costs of the contract that have arisen and the reimbursement is relatively certain.

Contract costs are only recorded as expenses when they have arisen.

The difference between the total accumulated revenue of the construction contract recorded and the accumulated amount recorded on the invoice for payment according to the planned progress of the contract is recorded as receivables or payables according to the planned progress of the construction contracts.

Financial Revenue

Financial revenue is revenue from interest on bank deposits.

Interest is recorded on an accrual basis, determined based on the balance of deposit accounts and the actual interest rate for each period. Advances received from customers are not recorded as revenue for the period.

11. Principles of recording cost of goods sold

Cost of goods sold is recorded and aggregated according to the value and quantity of finished products, goods, and materials sold to customers, consistent with revenue recorded in the period.

Cost of services provided is recorded according to actual costs incurred to complete the service, consistent with revenue recorded in the period.

Cost of construction and installation activities is recorded according to actual costs incurred for each project, consistent with revenue recorded in the period

12. Other accounting principles and methods

12.1 Tax obligations

Value Added Tax (VAT)

The Company applies the declaration and calculation of Value Added Tax according to the guidance of current tax laws with a VAT rate of 10%, 8%.

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

Corporate income tax

Corporate income tax represents the total value of current tax payable and refundable tax.

Current tax payable is calculated based on taxable income in the year. Taxable income differs from net profit as reported in the Income Statement because taxable income excludes income or expenses that are taxable or deductible in other years (including losses carried forward, if any) and excludes items that are not taxable or deductible.

The Company applies a corporate income tax rate of 20% on taxable profit

The determination of the Company's income tax is based on current tax regulations. However, these regulations are subject to change from time to time and the subsequent determination of corporate income tax depends on the results of the audit by the competent tax authority.

Other taxes

Other taxes and fees are declared and paid by the enterprise to the local tax authority in accordance with current regulations of the State.

(continued)

(These notes are an integral part and should be read in conjunction with the accompanying financial statements)

(ii) This is the advance payment of retired employees. Specifically:

The advance payment of Mr. Pham Thanh Son in the amount of VND 560,340,000 arose in 2002 when Mr. Cao Van Son (Company Director) signed the Land Sales Contract of Mr. Nguyen Huu Bang through the advance payment of Mr. Pham Thanh Son - a company employee. Mr. Pham Thanh Son retired from the company in 2005. This debt was transferred between the Director of the Construction Mechanical and Electrical Company (Cao Van Son) and the Director of the Construction Mechanical and Electrical One Member Limited Company (Nguyen Quoc Dam) when transferring the Company in 2005. In November 2017, Mr. Nguyen Quoc Dam retired, but this debt has not been resolved. This debt is currently unlikely to be recovered.

Mr. Nguyen Tien Thanh's advance payment of VND 83,676,625 arose in 2005 when Mr. Nguyen Tien Thanh was an employee of the Brick Factory. In October 2007, Mr. Nguyen Tien Thanh voluntarily resigned from the Company when the Company disciplined him for collecting debts for buying bricks from customers but not paying them to the Company. This debt isn't currently to be recovered.

(iii) Amount receivable under Joint Venture Contract No. 08/2011/HD-HTDT dated April 5, 2011 on cooperation in investment, construction, management, exploitation and business of the Ecological Works, Commercial Services and Sports Complex Project in Ta Thanh Oai Commune, Thanh Tri District, Hanoi City. This receivable has been recorded as an increase in State capital with the corresponding value according to Decision No. 3468/QD-UBND dated July 24, 2015 of the Hanoi city People's Committee on approving the enterprise value and equitization plan of Construction Mechanical and Electrical One Member Limited Company. On April 4, 2023, Indochina Resources Development Joint Stock Company issued a written confirmation that as soon as the competent authority approved the Project, Indochina Resources Development Joint Stock Company was approved as a member to participate in the implementation of the Project, Indochina Resources Development Joint Stock Company committed to pay all expenses as agreed upon in the Investment Cooperation Contract.
